Hi from Howie

Creator and Designer of 21st Century Kilts

"Welcome to 21st Century Kilts (TFCK). Launched in 1999 at London mens fashion week, I first created 21st Century Kilts in 1996.

My aim is to give men throughout the world a realistic alternative to trousers. Pioneering the next step of its evolution, 21st Century Kilts is true to the original kilt which was everyday clothing. Casual or formal a kilt should be an option for any man from anywhere who can realise they are part of the history of an international garment."
